

Project Proposal for Online Tutor Hiring -Web Application

Title

Development of Online Tutor Hiring System Web Application

Project Requestor

Name: Mr. S. Gopinath

Role: Instructor, Department of Physical Science, University of Vavuniya.

Client: Online Tutors

Statement of the Problem or Need

In today's digital age, many students seek personalized education solutions that traditional classrooms may not offer. However, finding qualified teachers can be challenging for students. This project aims to create a platform that connects students with teachers, allowing them to register with various education providers. This initiative will simplify the hiring process for students while providing teachers with an opportunity to reach potential learners.

Project Deliverables and Beneficiaries

The main deliverable of this project is an online platform that facilitates the registration and hiring process for students and teachers.

Key features will include:

- ❖ User-friendly interface for registration
- ❖ Search functionality for students to find teachers
- ❖ Secure payment options
- ❖ Feedback and rating system for both students and teachers

Beneficiaries:

- ❖ Students: Access to a wide range of qualified teachers and personalized learning experiences.
- ❖ Teachers: A platform to showcase their skills and connect with potential students.
- ❖ Tutors: Opportunities to showcase their expertise, connect with students, and earn income through flexible tutoring arrangements.

Related Projects

Similar projects may include:

- ❖ Online tutoring platforms like **Tutor.com** and **Wyzant**
- ❖ Educational marketplaces such as **Udemy** and **Coursera**

These projects may influence our platform's design and functionality, especially in terms of user experience and payment integration.

Project Assumptions and Constraints

Assumptions:

- ❖ Users will have reliable internet access.
- ❖ There is a demand for personalized online tutoring services.

Constraints:

- ❖ Budget limitations for development and marketing.
- ❖ Compliance with educational regulations and data privacy laws.
